HOW TO CHOOSE THE SIZE OF YOUR RING

If you want to measure your size on the screen:

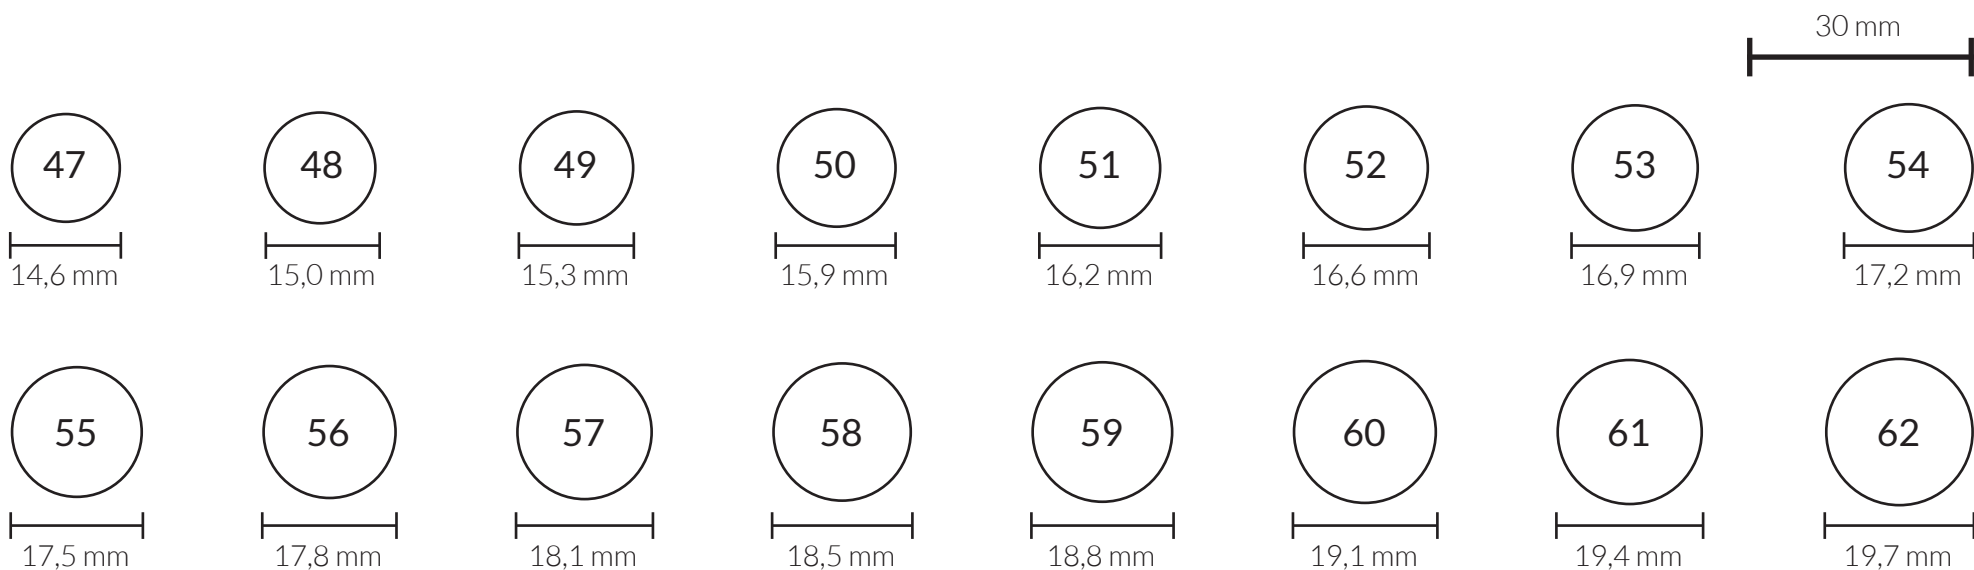

Start by making sure the scale of your measuring sheet is correct. The handle in the top right corner should measure 30 mm (1,18 inches).

Then, use a ring of your own that fits your chosen finger, and place it on the ring sheet to find out it's size. If your ring is in between two sizes, pick the larger one.

If you want to print the ring sheet:

Please make sure it is printed at 100% scale (do not tick the option "adjust to the page"). The handle in the top right corner should measure 30 mm (1,18 inches).

Then, use a ring of your own that fits your chosen finger, and place it on the ring sheet to find out it's size. If your ring is in between two sizes, pick the larger one.

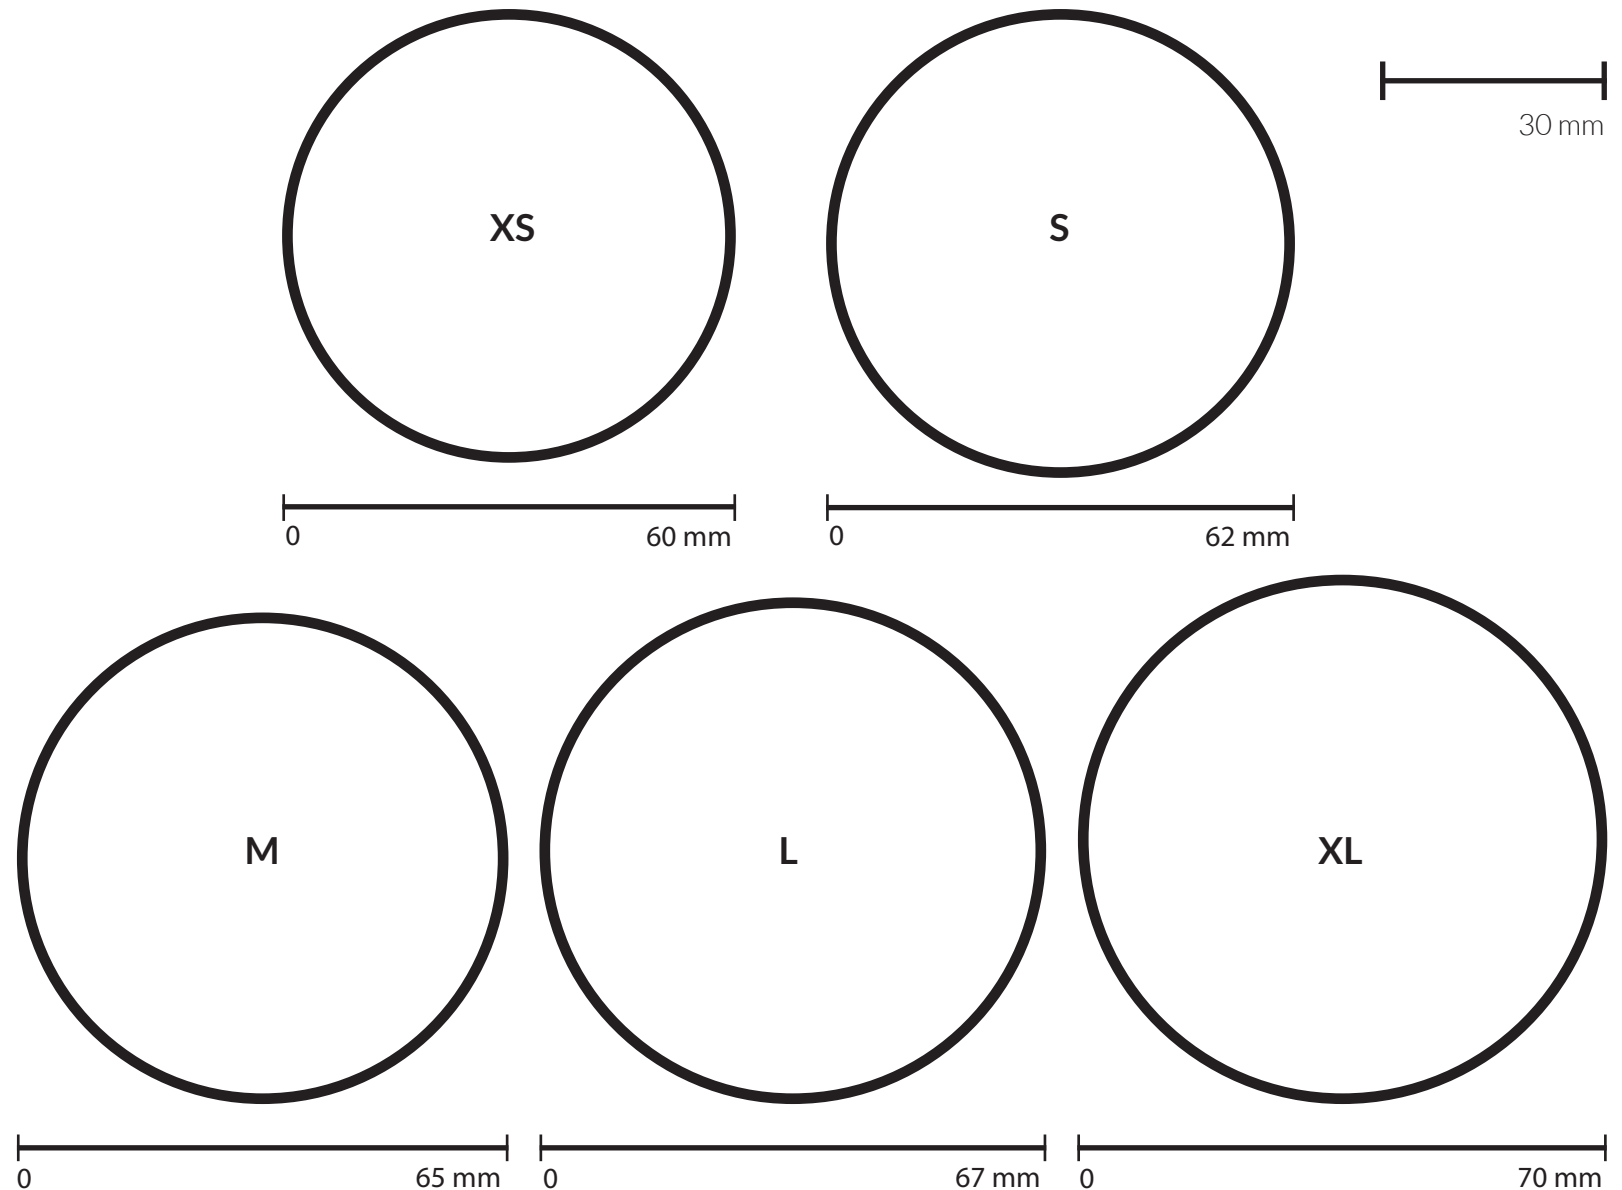

If the ring still doesn't fit, we will resize it with no added costs.

HOW TO CHOOSE THE SIZE OF YOUR BRACELET

Start by making sure the scale of your measuring sheet is correct. The handle in the top right corner should measure 30 mm (1,18 inches) . If you already have a bracelet at hand, please use it to find out the size. If not, print the document (please make sure the scale is correct) and use the sketches to make a paper bracelet to help you find your size.

If the bracelet still doesn't fit, we will resize it with no added costs.
